

ADA - COMPLIANT RAMP

Many venues and events require ADA access, which is why Staging Concepts offers portable ADA-compliant ramps to match up to its portable stage equipment. These ramps are available to match your stage height, whether it is fixed or adjustable. Additionally, Staging Concepts' ADA-compliant ramps can be custom designed to meet the needs of the space. Contact your sales representative to discuss your specific ADA-compliant ramp needs.

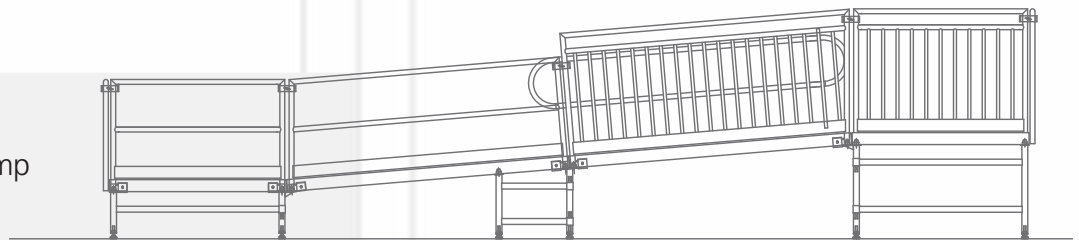

The following are example layouts for a 36" high ADA-compliant ramp matching up to a 36" high stage.
